

Notes:
 - Items in parenthesis are not part of the vehicle name, and are used to differentiate similarly named models
 - Battery sizes for the Model 3, which don't have a Tesla-claimed battery size, are rounded down from US EPA documents.
 - Models are separated based on configurability: The Model S P90D is the same car as the P90DL, but it is listed separately, as it could have been purchased with or without Ludacris space.
 - Future models are only listed when confirmed by Tesla or Elon. Rumored models are not listed.
